**SECTION – A ( READING)**

**(20 MARKS)**

**1. Read the passage carefully and answer the questions.**

1. If there is any time of the day you want the kids out of the way, tell them to go watch cartoons. It's one of the oldest tricks in the books and it works. The children are happy and you get some time to yourself. But doing this too often might cause problems. It already has, going by the number of parents asking teachers: "What do I do, my child watches cartoons on the television all the time?" An obvious answer would be -- find something more interesting for the child to do. But can anything else match a child's interest in watching animated films?

2. According to a survey by the Cartoon Network, children prefer animation to any other form of entertainment on television. This is because there is hardly a dull moment between events. Even a high drama feature film is bound to have some sequences where there isn't much action—hence it becomes "boring" from a child's point of view.

3. The funny and jerky movements of the caterpillar squirming on the floor and then turning into an alligator, or a dinosaur in 'Flintstones' singing a happy tune, makes cartoons so action-packed that children get excited and do not have the time to blink nor are they aware of what is going on around their surroundings.

4. Children till the age of about six don't really follow the storyline, but still love this capturing reality and exaggeration of the improbable. Understanding of the story normally begins around the age of six and full comprehension comes around the age of ten. This is the time when children begin enjoying the theme—the bully will be beaten by the bullied.

5. There is a debate on the statement: cartoons are designed to grab the attention of the child and are not necessarily what he likes. Animators believe that if the child does not like what he sees, he will walk away. But those who study children feel that when something is riveting, it might not necessarily be good for them. Hence violence, even in comic form, might not be the right thing for the child to watch. The fact remains that real life isn't as interesting for a child and therefore, he turns to watching something that is unrealistic and funny to boot.

6. A word of caution – feeding a child in front of TV can lead to obesity as he is so engrossed that he doesn't realise when he is full. Another negativity that comes with too much cartoon watching besides eye strain is that it diminishes group activities and time spent on playing outdoor games. But part of growing up is watching cartoons. What's more, grown-ups also watch them.

i) What gives children so much thrill that they get cut off from others? **(1x3=3)**

ii) 'Parents are guilty when they ask teachers for a solution to stop their children from watching cartoons'? Why are parents responsible to a certain extent?

iii) 'Small children do not comprehend the stories, but they still watch cartoons.' Why?

iv) What is the outcome of the analysis done by Cartoon Network ? **(1)**

v) Give two reasons to prove that TV watching has harmful effects on children. **(2)**

**vi) Find words in the passage having the same meaning for the given phrases.**

**(½x 4=2 )**

(a) clear, easily seen or understood (para1)      (b) series or structures (para2)

(c) doubtful (para4)      (d) warning or alert (para6)

vii) The line, parents asking teachers: "What do I do, my child watches

- cartoons on the television all the time?”—tells us about the: (1)
- (a) pride of the parents to see their children viewing cartoons.
  - (b) happiness derived by the parents to see their children engrossed in watching cartoons.
  - (c) frustration of the parents in seeing their children getting addicted to cartoons.
  - (d) anger of the parents to see their children not playing games.

- viii) An appropriate title for the passage would be: (1)
- (a) Cartoons      (b) Cartoon Crazy      (c) Woes of parents      (d) Network

**2. Read the poem carefully and answer the questions by choosing the right option:** (1x5=5)

**LIFE IS A GAME**

Life is a game with a glorious prize, If we can only play it right. It is give and take, build and break, And often it ends in fight; But he surely wins who honestly tries, (Regardless of wealth or fame) He can never despair who plays it fair How are you playing the game?	Get into the thick of it- wade in, boys! Whatever your cherished goal; Brace up your will till your pulses thrill, And you dare to you very soul! Do something more than make a noise; Let your purpose leap into flame, As you plunge with a cry, “I shall do or die,” Then you will be playing the game.

**3. Read the following passage and answer the questions that follow. Refer to the text to check your answers when appropriate.** (1 x 5 = 5)

1. Chess is called the game of kings. It has been around for a long time. People have been playing it for over five centuries. Chess is based on an even older game from India. The chess we play today is from Europe.
2. Chess is a two-player game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has one. The players take turns moving their pieces. If a player lands on a piece, he or she takes it. The game ends when a player loses his or her king. There are a few more rules, but those are the basics.
3. Some people think that chess is more than a game. They think that it makes the mind stronger. Good chess players use their brains. They take their time. They think about what will happen next. These skills are useful in life and in chess. Chess is kind of like a work out for the mind.
4. You don't always have lots of time to think when playing chess. There is a type of chess with short time limits. It's called blitz chess. In blitz chess, each player gets ten minutes to use for the whole game. Your clock runs during your turn. You hit the time clock after your move. This stops your clock. It also starts the other player's

clock. If you run out of time, you lose. Games of blitz chess are fast-paced. Chess is not just for people. Computers have been playing chess since the 1970s. At first they did not play well. They made mistakes. As time went on they grew stronger. In 1997, a computer beat the best player in the world for the first time. It was a computer called Deep Blue. Deep Blue was big. It took up a whole room. By 2006 a cell phone could beat the best players in the world. Chess sure has come a long way. Don't you think so?

हमारे लिए ही नहीं प्रत्येक जीव-जंतु, पेड़-पौधे सबके लिए पानी आवश्यक है। भला दो दिन गमले में पानी न डालो तो पौधा मुरझाने लगता है। पानी से ही धरती नरम और उपजाऊ होती है। वर्षा न हो तो अनाज की कमी से चारों ओर हाहाकार मच जाता है। मनीषा बड़े ध्यान से सुन रही थी। उसने माँ से पूछा, मेरी पुस्तक में लिखा है - धरती का तीन - चौथाई भाग पानी से भरा है। कितने सारे तो समुद्र हैं माँ, वे तो हर समय जल से भरे रहते हैं। फिर पानी की कमी क्यों? माँ ने बताया - मनीषा, पानी में जीवन देने की शक्ति है। तुम समुद्रों के पानी की बात कर रही हो, उनमें पानी तो है पर खारा, पीने लायक नहीं। नदियों का पानी लोगों की लापरवाही और स्वार्थ के कारण इतना प्रदूषित हो चुका है कि पीने लायक रहा ही नहीं। लोग अपनी सारी गंदगी नदी में बहाकर उसे गंदा कर देते हैं। पानी तो बहुत है पर शुद्ध पानी की कमी है। घर के नलों में जो पानी आता है, वह शुद्ध किया हुआ होता है। उसे व्यर्थ गँवाना ठीक नहीं।

1. पानी की आवश्यकता किस-किसके लिए है?
2. मनीषा ने माँ से क्या प्रश्न पूछा?
3. नदियों का पानी कैसे प्रदूषित होता है?
4. पानी को व्यर्थ क्यों नहीं गँवाना चाहिए?

शिवलिंग की मृत्यु के पश्चात उनके दत्तक पुत्र गुरुलिंग मल्लसर्ज को अंग्रेजों ने वारिस मानने से इन्कार कर दिया और किचूर को अंग्रेजी राज्य में मिला लेने का फ़रमान दे दिया। रानी फ़रमान सुनते ही आपे से बाहर हो गई और भरे दरबार में सिंहनी की तरह दहाड़ती हुई बोली - किचूर हमारा है और हमारा ही रहेगा। हम अपनी अंतिम साँस तक लड़ेंगे और इसे विदेशियों के हाथों में नहीं जाने देंगे। किचूर में युद्ध की तैयारियाँ शुरू हो गई। रानी स्वयं घुड़सवारी, तलवारबाजी (तलवार चलाने) तथा धनुर्विद्या में निपुण थीं। उन्होंने अपने प्रधान सेनापति सरदार गुरु सिदप्पा तथा अन्य सेनाध्यक्षों से विचार - विमर्श कर युद्ध की योजना बनाई। सेना और प्रजा - दोनों को ही अंग्रेजों के इरादों के प्रति सचेत कर दिया गया। दुर्ग की रक्षा किस प्रकार कुशलता से की जा सकेगी, उसकी व्यवस्था रानी चैनम्मा स्वयं अपनी देख-रेख में ही कर रही थीं।

जो युवा पुरुष सब बातों में दूसरों का सहारा चाहते हैं, जो सदा एक-न-एक नया अगुआ ढूँढ़ा करते हैं और उनके अनुयायी बना करते हैं वे आत्मसंस्कार के कार्य में उन्नति नहीं कर सकते। उन्हें स्वयं विचार करना अपनी सम्मति आप स्थिर करना, दूसरों की उचित बातों का मूल्य समझते हुए भी उनका अंधभक्त न होना सीखना चाहिए। तुलसीदास जी को लोक में जो इतनी सर्वप्रियता और कीर्ति प्राप्त हुई, उनका दीर्घ जीवन जो इतना महत्वमय और शांतिमय रहा, सब इसी मानसिक स्वतंत्रता, निर्द्वंद्वता और आत्मनिर्भरता के कारण। वहीं उनके समकालीन केशवदास को देखिए जो जीवनभर विलासी राजाओं के हाथ की कठपुतली बने रहे, जिन्होंने आत्मस्वतंत्रता की ओर कम ध्यान दिया और अंत में स्वयं अपनी बुरी गति की। एक इतिहासकार कहता है, "प्रत्येक मनुष्य का भाग्य उसके हाथ में है। प्रत्येक मनुष्य अपना जीवन - निर्वाह श्रेष्ठ रीति से कर सकता है। यही मैंने किया है और यदि अवसर मिले तो यही करूँ।" इसे चाहे स्वतंत्रता कहो, चाहे आत्मनिर्भरता कहो, चाहे स्वावलंबन कहो, जो कुछ कहो, यह वही भाव है जिससे मनुष्य और दास में भेद जान पड़ता है।
