ನೀರಿಯಾರಿಗೆ ಬೇಡ? ಅದಿಲ್ಲದೆ ಯಾವಜೀವಿ ತಾನೇ ಉಳಿದೀತು? ಸೌರವ್ಯೂಹದಲ್ಲಿ ಅನೇಕ ಗ್ರಹಗಳಿವೆ. ಅವುಗಳ ಪೈಕಿ ನಮ್ಮ ಭೂಗ್ರಹದ ಮೇಲೆ ಮಾತ್ರ ಜೀವಿಗಳು ವಿಕಾಸಗೊಂಡಿವೆ. ಇಲ್ಲಿ ನೀರಿರುವುದಕ್ಕೆ ಇದೇ ಕಾರಣ ಎಂದು ವಿಜ್ಞಾನಿಗಳು ಹೇಳುತ್ತಾರೆ. ಆದ್ದರಿಂದ ನೀರನ್ನು ಯೋಗ್ಯ ರೀತಿಯಲ್ಲಿ ಕಾಪಾಡಿಕೊಳ್ಳುವುದು ತುಂಬ ಮುಖ್ಯ. ಇಲ್ಲದಿದ್ದರೆ ಕೆಲವೇ ವರ್ಷಗಳಲ್ಲಿ ನಮಗೆ ದೊಡ್ಡ ತೊಂದರೆ ಕಾದಿದೆ. ನೀರು ದಿನನಿತ್ಯ ಬಳಕೆಯ ವಸ್ತುಗಳಲ್ಲಿ ಅಗ್ರಸ್ಥಾನದಲ್ಲಿದೆ. ಕುಡಿಯುವುದು, ಸ್ನಾನ, ಅಡುಗೆ, ಬಟ್ಟೆ ತೊಳೆಯುವುದು ಇತ್ಯಾದಿ, ಕೃಷಿ, ಕೈಗಾರಿಕೆಗಳಿಗೂ ನೀರು ಬೇಕೇಬೇಕು, ಆದರೆ ಹೆಚ್ಚುತ್ತಿರುವ ಜನಸಂಖ್ಯೆ, ಬೆಳೆಯುತ್ತಿರುವ ಉದ್ಯಮಗಳಿಂದ ಮತ್ತು ನಮ್ಮ ಬುದ್ಧಿಗೇಡಿ ತನದಿಂದ ನೀರನ್ನು ಅಪವ್ಯಯ ಮಾಡುವುದಷ್ಟೇ ಅಲ್ಲದೆ, ಮಾಲಿನ್ಯ ಕೂಡ ಮಾಡುತ್ತಿದ್ದೇವೆ.

ಗಾಳಿ, ನೀರು, ಕಾಡು ಇವೆಲ್ಲ ನಮಗೆ ಪ್ರಕೃತಿಕೊಟ್ಟ ವರ. ಇವು ಚೆನ್ನಾಗಿದ್ದರೆ ಮಾತ್ರ ನಮ್ಮ ಬದುಕು ಸರಿಯಾಗಿ ನಡೆಯುತ್ತದೆ. ಪ್ರಕೃತಿಯು ಅನಂತ ಕಾಲದಿಂದ ಈ ಅಮೂಲ್ಯ ವಸ್ತುಗಳನ್ನು ಮುಂದಿನ ಪೀಳಿಗೆಗಳ ಎಲ್ಲ ಜೀವಿಗಳಿಗೇಂದು ಸೇರಿಸಿಟ್ಟಿದೆ. ಇದೊಂದು ಅಕ್ಷಯ ನಿಧಿ. ಇದನ್ನು ಹಾಳು ಮಾಡಲು ನಮಗೆ ಯಾವ ಹಕ್ಕೂ ಇಲ್ಲ. ಈ ಜಲಸಂಪತ್ತನ್ನು ಸರಿಯಾಗಿ ಉಪಯೋಗಿಸಿ ಕೊಳ್ಳುವುದೊಂದೇ ನಮಗಿರುವ ಹಕ್ಕು.

Section A - Reading

1. Read the passage given below: (8)

The Perfect Dog

1. In the summer of 1967, when I was 10 years old, my father caved into my persistent pleas and took me to get my own dog. Together we drove in the family station wagon far in to the Michigan countryside to a farm run by a rough-hewn woman and her ancient mother. The farm produced just one commodity dogs. Dogs of every imaginable size and shape and age and temperament. They had only two things in common: each was a mongrel of unknown and distinct ancestry, and each free to a good home.
2. I quickly decided the older dogs were somebody else's charity case. I immediately raced to the puppy cage. "You want to pick one that's not timid," my father coached. "Try rattling the cage and see which ones aren't afraid."
3. I grabbed the chain-link gate and yanked on it with a loud clang. The dozen or so puppies reeled backward, collapsing on top of one another in a squiggling heap of fur. Just one remained. He was gold with a white blaze on

his chest, and he charged at the gate, yapping fearlessly. He jumped up and excitedly licked my fingers through the fencing. It was love at first sight.

4. I brought him home in a cardboard box and named him Shaun. He was one of those dogs that gives dogs a good name. He effortlessly mastered every command I taught him and was naturally well behaved. I could drop a crust on the floor and he would not touch it until I gave the okay.
5. Relatives would visit for the weekend and returned home determined to buy a dog of their own, so impressed were they with Shaun-or “Saint Shaun,” as I came to call him. Born with the curse of an uncertain lineage, he was one of the tens of thousands of unwanted dogs in America. Yet by some stroke of almost providential good fortune, he became wanted. He came into my life and I into his-and in the process, he gave me the childhood every kid deserves.
6. The love affair lasted fourteen years, and by the time he died I was no longer the little boy who had brought him along on the summer day. I was a man, out of college and working across the state in my first real job. Saint Shaun had stayed behind when I moved on. It was where he belonged. My parents, by then retired, called to break the news to me. My mother would later tell me, “In fifty years marriage, I’ve only seen your father cry twice. The first time was when we lost Marry Ann -my sister, who was stillborn. “The second time was the day Shaun died.”

Do you remember the last time you laughed out loud? For most of us laughing out loud is an uphill task. More often than not people think that they have no time to laugh. There are more important things to do. But if you ask Jean Leggett, the Canadian founder of Bootcamp she’ll say you do not have anything more important

to do than just laugh. Says Sudha Chandra, who attended a bootcamp: 'My life was joyless. Hiring a laughter coach changed my perspective towards life. I learnt to record my emotions and ensured that the four elements of joy – dancing, laughing, singing and playing – helped to build an emotional reserve.'

The cynic in us may still think it is an exaggeration, but the fact is that we can be taught to laugh more. Neuroscientist Jodi Deluca says it doesn't matter how shy you laugh. Even in small doses, laughter improves the quality of life. You can condition people to feel more positive as laughter opens up the mind and frees the creative juices. It makes us more receptive to new ideas. The New York-based laughter coach Beth Bongar says that since our everyday lives are full of stresses in her classes on laughter she uses the 'gibberish' technique where everyone laughs by using gibberish sounds. Such playful exercises help to reduce inhibitions and shyness and convert simulated laughter into unconditional laughter.

According to the greatest laughter therapists laughter is a cathartic process which helps rebalance the chemistry of emotions which can be keynote for healing. Several researchers on the benefits of laughter in Japan have shown that laughter therapy is an efficient, low-cost, medical treatment that cuts health costs. According to their findings laughter is a stimulant that triggers energy inside a person's DNA, potentially helping to cure disease. When we are laughing with other people, we share a sense of connectedness which in turn reduces loneliness. Says comedian Vir Das: 'When 3000 people laugh at me during my performance, even if I have had a bad day, I feel joyful. Not everyone can be comedian, but we can all learn to be more joyful.'

1. Read the passage carefully.

Speed breakers have sprung up all over our cities, making driving quite hazardous. The traffic police have thus resorted to what they call 'life calming measures'. Essentially a pedestrian friendly measure by traffic police, speed breakers have become a source of a great agitation for most drivers. They have become a nuisance because they are not built or installed according to guidelines. Also the choice of spots for putting speed breakers is arbitrary and causes a lot of damage to vehicles and poses a threat to people.

Essentially there are three types of speed breakers. Rumble strips are considered ideal for situations where the speed needs to be brought down drastically. The second variety, speed tables, are used where pedestrians and cyclists only, cross the road. The third variety, transverse bar markings, are used where speeds have to be brought down a little. The traffic police, which is the primary agency for identifying the location and need for speed breakers, says that it recommends them on the request of resident welfare associations, or in places which tend to be accident-prone. The reality is that several speed breakers have come up which do not adhere to the guidelines of the Indian Roads Congress, the primary body that guidelines on the building of speed breakers.

According to the IRC, speed breakers may be built by providing a 'rounded' hump of 3.7 m width and 0.01m height for speed up to 25 kmph. These are to be used on minor roads or where a minor road meets an arterial road or highway. Also, the lesser the speed of the vehicles using the road, the shorter must be the width and height of the speed breaker. For heavier vehicles, trucks and buses the humps may be modified with 1.5m long ramps at each edge. Speed breakers can be repeated over a section to keep speeds low throughout the stretch.

Unplanned or illegal speed breakers can be dangerous as they slow down emergency vehicles, such as ambulances, police vehicles and fire trucks. Such breakers can cause traffic congestion during peak hours. They increase noise pollution as pedestrians are forced to slow down and vehicle parts break down due to sudden stopping. These illegal hurdles also reduce fuel efficiency and increased air pollution. The impact of a speed breaker can also be harmful for patients in transit or senior citizens and pregnant women. Thus citizens should not build these road blocks themselves.

1.1 On the basis of your reading of the above passage answer the following questions:

(6 x 1 = 6)

- (a) Why have speed breakers become hazardous?
- (b) What variety of speed breakers is put up for pedestrians and cyclists?
- (c) How do the traffic police decide on the location of speed breakers?
- (d) What is rounded hump?
- (e) Give one reason why speed breakers can be dangerous.
- (f) How do speed breakers cause air pollution?

मनुष्य सुख और शांति के लिए जन्म से ही प्रयास करता आया है । शिक्षा द्वारा उसे पूर्ण मानसिक शक्ति प्राप्त हुई । शिष्ट व्यक्ति सभ्य और सुसंस्कृत समाज के निर्माता होते हैं और व्यक्तियों को शिष्ट बनाने के लिए शिक्षा महत्वपूर्ण साधन है । व्यक्ति की सच्ची स्वतंत्रता निरक्षरता में नहीं, साक्षरता में है; इसलिए हमारे देश के नेताओं ने देश की स्वतंत्रता से भी बहुत पहले राष्ट्रीय विकास के माध्यम के रूप में शिक्षा के महत्व को अनुभव कर लिया था । वे यह जान चुके थे कि नैतिक, आर्थिक एवं सामाजिक उत्थान के लिए शिक्षा अत्यावश्यक है । तभी गांधी जी ने बुनियादी शिक्षा की बात उठाई थी । साक्षरता प्रतीक है - स्वतंत्रता एवं विकास की । शिक्षा ही गुलामी की जंजीरों तथा शोषण से हमारी रक्षा करती है । जब कोई व्यक्ति सूदखोर व ज़मींदार की चालाकियों को समझने लगता है, जब कोई खाली व कोरे कागज़ पर अंगूठा लगाने से इनकार कर देता है - तब होता है एक विस्फोट; जिसकी गूँज व लौ दूर-दूर तक महसूस की जा सकती है । फिर जन्म होता है - एक नए मानव का, एक साक्षर मानव का, एक स्वतंत्र एवं आत्म-निर्भर मानव का । इसके साथ ही समाज लेता है - एक अँगड़ाई, एक नई दिशा, एक नया मोड़ । प्रजातंत्र की सफलता, पूर्णतया देश के नागरिकों पर निर्भर है और ऐसा तभी संभव है, जब व्यक्ति उचित व अनुचित में भेद करना सीख जाए । ऐसा मात्र शिक्षा द्वारा ही संभव है । अतः शिक्षा ही प्रजातंत्र में प्राण फूँकती है, इसको सार्थक बनाती है तथा सही अर्थों में शिक्षा ही प्रजातंत्र की आत्मा है । शिक्षा के द्वारा ही शारीरिक, मानसिक व सांस्कृतिक विकास संभव है । इसी के द्वारा मन व मस्तिष्क की शक्तियों को एकजुट किया जा सकता है । मनुष्य एक सामाजिक प्राणी है । वह मनुष्य, मनुष्य कहलाने योग्य नहीं है, जो निरक्षर है । वह पशु-तुल्य प्रवृत्तियों को अपनाता है । मनुष्य को पृथ्वी का स्वामी माना गया है , परंतु यदि वह निरक्षर होगा तो वह स्वामी की उपाधि के लिए उपयुक्त भूमिका नहीं निभा पाएगा । भारत सरकार ने स्वतंत्रता पाने के पश्चात बहुत-से विद्यालय खोले । प्रौढ़-शिक्षा, सह-शिक्षा एवं अनौपचारिक शिक्षा केंद्र भी खोले गए । आज शिक्षा का स्तर पहले से अधिक बढ़ गया है । लेकिन अभी भी स्थिति उतनी दृढ़ नहीं है, जितनी कि होनी चाहिए । भारत के समक्ष अभी सबसे महत्वपूर्ण चुनौती साक्षरता के स्तर में वृद्धि लाना है । वे सभी लोग, जो अभी निरक्षर हैं, उन सबको राष्ट्र की मुख्यधारा में लाना है, जिससे वे अपने अधिकार जानें व अपने कर्तव्य के विषय में भी जागरूक हों ।

1. मनुष्य जन्म से किस चीज़ को पाने का प्रयास करता आया है?
2. मनुष्य को किस चीज़ से मानसिक शक्ति मिली है?
3. सभ्य और सुसंस्कृत समाज के निर्माता कौन हैं?

6. साक्षरता किसका प्रतीक है? लिखो।
7. शिक्षा किससे हमारी रक्षा करती है?
8. प्रजातंत्र की सफलता पूर्णतया किस पर निर्भर है?
9. मनुष्य कैसा प्राणी है?
10. शिक्षा के बिना मनुष्य किसके समान है?
11. मनुष्य को किसका स्वामी माना गया है?
12. भारत सरकार ने निरक्षरता के कलंक को मिटाने के लिए कौन-सा अभियान चलाया है?

II निम्नलिखित पद्यांश को पढ़कर दिए गए प्रश्नों के सही उत्तर दीजिए।

बदला दो ज़माना, धरा जगमगाओ,
पसीना बहा, धूल सोना बनाओ।

घृणा को घृणा से कठिन जीत पाना,
कठिन बैर को बैर से है दबाना,
कठिन है बहुत राह इस ज़िंदगी की।
बनाओ उसे तुम सुकोमल बनाओ।

बदल दो ज़माना, धरा जगमगाओ।
बहुत ही सरल है उठे को गिराना,
बहुत ही सरल है बने को मिटाना,
सरल है नहीं किंतु निर्माण करना।

अगर हो सके तो इसे कर दिखाओ।
बदल दो ज़माना, धरा जगमगाओ।

1. कवि क्या बदलने के लिए कह रहे हैं?

- शुद्ध सोना अलग है और गिन्नी का सोना अलग। गिन्नी के सोने में थोड़ा-सा ताँबा मिलाया हुआ होता है, इसलिए वह ज्यादा चमकता है और शुद्ध सोने से मज़बूत भी होता है। औरतें अकसर इसी सोने के गहने बनवा लेती हैं। फिर भी होता तो वह है गिन्नी का ही सोना।

शुद्ध आदर्श भी शुद्ध सोने के जैसे ही होते हैं। चंद लोग उनमें व्यावहारिकता का थोड़ा-सा ताँबा मिला देते हैं और चलाकर दिखाते हैं। तब हम लोग उन्हें “प्रैक्टिकल आइडियालिस्ट” कहकर उनका बखान करते हैं।

पर बात न भूलें कि बखान आदर्शों का नहीं होता, बल्कि व्यावहारिकता का होता है। और जब व्यावहारिकता का बखान होने लगता है, तब “प्रैक्टिकल आइडियालिस्टों” के जीवन से आदर्श धीरे-धीरे हटने लगते हैं और उनकी व्यावहारिक सूझबूझ ही आगे आने लगती है।

सोना पीछे रहकर ताँबा ही आगे आता है।

क) शुद्ध सोने और गिन्नी के सोने में क्या अंतर होता है?
